

INSURANCE – IS THERE A NEED???

The Potential Risks

Accidents and disasters can occur unpredictably and anywhere, exposing you to potential risks that should not be ignored.

Should have.....

It is crucial to have insurance protection to shield yourself from potential risks.

Should not.....

Living without any insurance at all leaves you vulnerable and exposed to high risks.

What is insurance?

~ **A Financial Product** – protects against specific risks in exchange for regular premium payments.

~ **Risks Management** – transfer of the financial risk of certain events (like accidents, illnesses, or property damage) to an insurance company.

~ **A Safety Net** – helping individuals and businesses protect their finances from unexpected events and uncertainties.

The benefits of having insurance:

- ~ **Financial Protection** – protect your financial well-being in uncertain times.
- ~ **Peace of Mind** – knowing you are covered can alleviate anxiety about potential risks.
- ~ **Legal Requirements** – motor insurance is mandatory.
- ~ **Support for Dependents** – life insurance for your loved ones upon your death.
- ~ **Asset Protection** – homeowners insurance protects your property.
- ~ **Healthcare Access** – health insurance for medical care.
- ~ **Liability Coverage** – liability insurance protects you from 3rd party's claim.
- ~ **Business Protection** – for business owners, insurance can protect against various risks, including property damage, liability claims, and loss of income.
- ~ **Project Coverage** – Contractor's All Risks (CAR) & Workman Compensation (WC) is a contract obligation.

Consider your specific needs, risks, and financial situation to determine which types of insurance are most relevant for you.
